7   (a) requesting, from the first terminal to the second terminal, access to the

8   communications network;

9   (b) using an execution program, free-of the second virtual language, in the second

10 terminal to determine if access is permissible to the requesting first terminal in step (a);

11   (c) sending, from the second terminal to the first terminal, an encrypted access

12 confirmation message to confirm the access request of step (a);

13   (d) using an execution program, free-of the first virtual language, in the first

14 terminal to decrypt the encrypted access confirmation message sent in step (c) and

15 confirm the access request of step (a);

16   (e) replying, from the first terminal to the second terminal, an encrypted reply

17 message to the decrypting performed in step (d); and

18   (f) granting the first terminal access to the communications network, after

19 successfully performing step (e).

Respectfully Submitted,

_____
